

VALUE ADDED SERVICES

Delivering efficiency

Time is a valuable resource, best utilised on pursuits that matter the most to your business. Varuna Group's Value Added Services are designed to help you make the most of it.

Leave it to us to take care of your Return Handling, Kitting/Dekitting, Labelling, Refurbishing, and Quality Checks requirements. Based on your specifications, our team will help you identify the most effective assortment from our VAS suite, ultimately resulting in **reduced overheads, greater convenience, and increased efficiency** for you.

Our VAS Suite

Kitting/Dekitting

Assembly and packaging of multiple products into a single unit and proficient deconstruction of kits.

Advantages

Better inventory management

Reduced handling costs

Simplified supply chain operations

Refurbishing

Restoring the packaging/product in order to safeguard the integrity and the sales value of your shipments.

Advantages

Extended product life

Reduced costs associated with potential product replacement

Improved sustainability

Our VAS Suite

Labelling

Correct printing and placement of labels as per your requirements. Ideal for businesses with high inventory volumes.

Advantages

Accurate inventory tracking and management

Faster order processing and reduced errors

Return Handling

Managing returns with strict adherence to quality, SOPs, and storage norms, preventing any gaps in the fulfilment process.

Advantages

Streamlined return process

Reduced costs associated with returns

Quality Checks

End-to-end inspections from receiving products to shipping - in line with quality standards.

Advantages

Assured product quality

Reduced costs associated with product defects
